Denver as a result of information furnished by the Bureau in an airtel to all offices dated 9/9/69, concerning automobile warranty maintenance records contacted the Regional Office for the Chrysler Corporation at Denver. In the airtel of 9/9/69, the Bureau advised the Chrysler Corporation in Detroit had furnished information concerning 21 regional offices of that corporation that had a video display system that could advise of warranty work having been done on Chrysler products. In the contact at Denver it was found that it is necessary to have the VIN of the vehicle in order to obtain information concerning any warranty work. In regard to this type of inquiry, Denver is requesting Springfield to again review vehicle records in an effort to ascertain if [redacted] has ever had any automobile registered in his name in that state at any time. Inquiries will also be made concerning [redacted]. It is felt that if such information can be ascertained it would be possible to find out where [redacted] has sold cars previously owned by him and could possibly identify the current 1968 Plymouth believed to be in his possession in May of this year at Missoula, Montana.

DAILY SUMMARY

Denver has thoroughly reviewed information available at this office concerning the feasibility of circulating hotels and motels in areas where [REDACTED] has been known to live and operate. It is felt circularization of the State of Illinois is not feasible as it would appear that adequate contacts have been made in that state that in the event he should return to or be living in the state, Bureau Agents of the Chicago and Springfield Offices would be advised. Likewise, it would not appear logical that Colorado should be circulated as there would be no reason to indicate that [REDACTED] would return to this state. Information found as a result of review of Denver file concerning [REDACTED] indicates a number of close associates have stated [REDACTED] in the past had talked of

These two states have been the only indicates of possible travel by [redacted] prior to his involvement for which Federal process is now outstanding concerning him. With this in mind, the Bureau is requested to authorize Sacramento, San Francisco, Los Angeles and San Diego, all in the State of California, and Tampa, Jacksonville and Miami, all in Florida, to cause a circularization of all motels and hotels in both of these states. If such circularization is authorized by the Bureau, these offices should be requested to contact the Bureau and advise of the number of items they would need to circularize in their particular office. It is requested that if the Bureau grants authorization for this circularization that the wanted flyer type notice be used. Further, the Bureau is requested to consider the feasibility of preparing a wanted flyer which would show a photograph of [redacted] with a beard as prepared by the Cartographic Section, which photograph was shown to the officer of the Missoula Police Department, Missoula, Montana, and apparently was of a great likeness to the individual he had stopped in May, 1969, in Missoula.

DAILY SUMMARY

Miami has advised that as a result of contact with the Florida Hotel and Restaurant Commission, circularization of the subject through hotel and motel periodicals would account for possibly only 50 to 60% of the establishments in the State of Florida. This commission furnished the name of two logical hotel and motel journals published that could be used in setting forth information concerning the subject in a hotel-motel periodical. The commission office discounted the value of such circularization as it is not mandatory to belong to a hotel or motel association. Miami did ascertain that it is, however, a state law that all hotels and motels in Florida must be licensed from the State capital at Tallahassee. Miami ascertained the identity of the Director, Division of Hotels and Restaurants in Tallahassee, Florida, and consideration will be made by Denver to contact this state agency concerning the possibility of circularization through this office.

Re Bureau airtel to Denver, 11/10/69, Tampa airtel to Bureau, 11/13/69, and Denver airtel to Los Angeles, 11/14/69.

For the information of the Bureau and interested offices, contact with the Florida Hotel and Motor Hotel Assoc., Inc., Tallahassee, Fla., disclosed that this association has a most inadequate listing for hotels and motels in the state of Florida. It was also determined that this association has no addressograph system whereby circularization could be established through this source.

For the additional information of the Bureau and interested offices, [REDACTED] Chief of Licensing, Division of Hotels and Restaurants, Tallahassee, Fla., has advised that his office maintains a complete list of all hotels, motels, rooming houses and restaurants in the state of Florida, consisting of approximately 67,000 such licensed establishments. He said he does not have addressograph plates, however, he said he will furnish the Jacksonville Division a complete listing of these businesses broken down by county and type of establishment during January, 1970. [REDACTED] said his office is presently in the process of bringing this list up to date as there are approximately 2,000 additions and/or deletions annually. He also has agreed to furnish the Jacksonville Division with annual changes in order that a complete accurate listing of all hotels, motels, rooming houses and restaurants can be maintained.

As soon as the above list is made available to the Jacksonville Division, and appropriate addressograph plates have been prepared, Miami and Tampa offices will be furnished with addressograph plates for those establishments located in those divisions.

In view of the above, it is recommended that circularization of hotels and motels in the state of Florida be held in abeyance pending completion of the above arrangements. The Jacksonville Division will closely follow this matter and will advise interested offices when such circularization can be accomplished.

DAILY SUMMARY

San Francisco has advised the following information concerning hotel and motel circularization in that division:

They have advised there are approximately 700 hotels in the San Francisco Division for which the San Francisco Division has addressograph plates. This mailing could be mailed without cost. There are approximately 1500 motels in the area covered by the San Francisco division. San Francisco has advised mailing of this nature could be done by Business Extension Bureau in San Francisco at a cost of approximately \$60. The San Francisco Office would need approximately 2200 circular letters. The Bureau will be advised of results of replies from other offices in California as well as Florida so that consideration of mailing may be made.
